

Abigail's

“Footsteps no matter how small always leave a big impression on your heart”

Abigail's Footsteps was launched in 2010 by parents Jo and David Ward following the death of their daughter Abigail Ward who was stillborn at 41 weeks gestation in April 2009.

15 babies are either stillborn or die a neonatal death every single day in the UK. Despite this shocking statistic, many hospitals remain ill prepared to deal with these events. Staff often receive little or no bereavement training and facilities are inadequate.

THE CHARITY HAS 3 AIMS...

Improve bereavement training for health care professionals

Provide Vital Equipment in every maternity unit

Ensure that bereavement suites are located away from main maternity wards
